ARRIVAL OF THE SPARROWHAWK.—H.M.S. Sparrowhawk arrived from Victoria on Thursday morning. It is rumoured that the Governor will go down by her to-day. We regret to hear that His Excellency is suffering from severe illness.

FROM YALE.—The str. Onward, Capt. Irving, returned from Yale last evening. No later news of importance.

FROM VICTORIA.—The str. Enterprise, Capt. Swanson, returned from Victoria last evening, bringing freight and passengers, and the Eastern mail which came by the J. L. Stevens. We glean the following local news from the *Colonist*.—There is no hope of the Del Norte being got off the reef. The bark Rival arrived from San Francisco on the 27th, loaded with merchandise, consigned to Millard & Beedy. P. Swigert, undertaker, died of small-pox on Tuesday. As the Active was coming up to the wharf, on Tuesday night, a man fell overboard, but was rescued. The Dramatic Club is to be revived. A Missionary Meeting was held on Thursday to hear the Rev. Mr. Good. The attendance was not large and another meeting is spoken of. Mr. Ring is said to be carrying everything before him at Nanaimo. Mr. Southgate, ex-member for that town, returned on the J. L. Stevens. The ship, Spirit of the Age, touched ground on Wednesday, when off San Juan Island, but soon got off without injury. Mr. D. W. Higgins and family sailed from San Francisco for Victoria on Tuesday. The ship Bolivia, 134 days from Liverpool, arrived on Thursday. The ship Guayaquil, 24 days from San Francisco, arrived on Tuesday. She will take in a cargo of lumber at Moody & Co.'s Mills, for Callao.

SAUCE FOR THE GOOSE, &c.—In the course of the discussion caused by Nova Scotian opposition to Confederation, it has come out that Cape Breton was treated in 1824 precisely as Nova Scotia has been in 1867, only a little worse, inasmuch as she was annexed to Nova Scotia without the consent either of her people or her Parliament. She petitioned the Imperial Parliament against the measure and Joseph Hume (the John Bright of that day) presented and supported her petition, but all in vain. Annexed she was, and annexed she continues to be.

CORRECTION.—At the request of Mr. Codville we most willingly correct the statement, which appeared in our columns a few days ago, to the effect that he had lost 75 tons of hay by fire. Mr. C. informs us that the statement is wholly incorrect. Nor was he ever better prepared for wintering stock than at present. We are glad to hear it.

THE "SENTINEL" AND THE CONVENTION.

It appears that the action taken by the Convention which met at Yale last month, does not meet with the approbation of the editor of the Cariboo *Sentinel*. The ground of dissatisfaction may be gathered from the following words:—"It is our opinion now, and has always been, that all efforts that are made to reform and amend the present Government of this Colony is just so much work exercised to retard or obstruct Confederation in the first place, and to make union, after it is obtained, less appreciated or satisfactory to the people." As if he had said, "I go in for Confederation and nothing else; and I am opposed to any amelioration of the political condition of the Colony, in the meantime; because it would weaken the desire for Confederation, and make the transition less marked, and the boon less appreciated when it does come." On this point we must differ from our mountain contemporary; nor can we think that his sentiments are shared by any considerable number of our fellow Colonists. Were the question one of a mere surprise to a "small tea-party," we might possibly enter into the joke; but it is altogether of too grim a character when it underlies the wellbeing, possibly the destiny, of a whole Colony. Imagine a Physician voluntarily and wantonly keeping his patient, during long weary weeks, perhaps months, enduring the most excruciating agony, the subject of the unchecked inroads of disease which may inflict permanent constitutional injury, and which will, at the very best, put convalescence many, many weeks farther off, and this, too, in order that a strong desire for a particular remedy may be kept alive, and that the system may be reduced to the lowest possible condition when that remedy is administered, so that it may be all the more appreciated by the patient! What would be thought of such a selfish, heartless line of conduct? It would scarcely be less culpable than that of the Physician who would administer a deleterious poison in order that he might have the credit and self-satisfaction of administering an antidote. If Confederation is indeed the great remedy it is cracked up to be, and which we verily believe it to be, provided it is obtained at the proper time and on fair and proper conditions, let us seek it, by all means, and with singleness of purpose; but in seeking it, don't let the patient be starved or neglected, meanwhile. Rather let every palliative, every nourishment consistent with the nature of the disease be faithfully administered, so that when Confederation does come it may find this Colony in as healthy and prosperous a condition as possible. Let no improvement, no reform be withheld for fear of rendering the great ultimate remedy less desired or less necessary. Confederation may possibly be farther off than some of us hope and think. Why leave the Colony without alleviation now? What our contemporary is pleased to consider the blemish in the work of Convention we must be excused for esteeming its most practical good; and we take the liberty of saying that we are greatly disposed to look upon those who have such a mania for Confederation as to desire to perpetuate existing political evils in order to create a keener appetite for that measure, as neither the true friends of the cause nor of the Colony. It is just to such weak fanaticism as this that Confederation to a great extent owes its present unpopularity in certain quarters. Confederation is unquestionably our destiny. Let us work for it, wait for it, prepare for it; but while we do so let us be just as zealous in seeking to promote desirable reforms in the existing system as though Confederation were fifty years away.

MURDER OF CAPT. MITCHELL.—The last mail steamer brought news of the murder in San Francisco of Capt. Mitchell, late of the U.S.S. Saginaw. He was murdered by means of a slungshot. The murderer was secured.

CANADIAN SUMMARY.

Our Canadian files are to the 10th September. The result of the free land grant system, adopted by the Ontario Legislature, has so far proved eminently successful. Although the system has as yet only been extended to a few new townships, chiefly situated in the Muskoka district, bordering on Georgia Bay, 25,000 acres of these lands have already been taken up for actual settlement. It would appear that the Ministerial mission to Halifax, undertaken by Sir J. A. McDonald and several of his colleagues, had not proved altogether barren of good results. The political tempest is said to have calmed down; distrust has been removed and the difficulty is said to have vanished—all the result of a tone and temper unfortunately wanting in the Ottawa authorities in former dealings with Nova Scotia. Referring to the result of the mission the *Montreal Daily News*, a paper not particularly friendly either to the Dominion Government or to Confederation, says:—"There will be heard here and there a few angry mutterings; mediocrity inflated with self importance will swagger and rant, but the chiefs of the people, after maturely examining the merits and demerits of confederation, have decided to give it a fair trial. The local House will save its honour by resolutions framed to bridge over the hostile line it had traced, and proceed with the ordinary important business of the session. There has been no sacrifice of character on either side; in fact the Ministry could not deviate from the path traced out in the Act of Confederation, and could offer no personal inducements to Mr. Howe or any of his friends to forego their opinions. All the latter demanded was that the interests of Nova Scotia should be fostered and the wishes of the majority consulted. They have ascertained that Canada will act towards them in a loyal and generous spirit. They were not asked to make any sacrifice of principle, but they were urged to give the new political system a fair trial, and it redounds to their credit that they have frankly accepted the position. One of the first fruits of the peaceful victory will be the resumption of operations on the Intercolonial, and that great work will almost immediately be commenced Mr. Edward Watkin, member of the late House of Commons of Great Britain, has recently been knighted by the Queen. Sir Edward has for many years been intimately connected with Canada and her railroads, is, in fact, very much a Canadian. Miss Rye had returned to England, with the purpose of bringing out another 100 young women for domestic servants, so encouraging has been the result of the first experiment. Waterworks are about to be constructed in the city of Ottawa, at a cost of $400,000. The manufacture of peat fuel is now engaging a good deal of attention in Canada. Ontario has its great Welland peat works. Quebec has its La Pigeonniere peat bogs, where the mechanical genius of Mr. Hodges has evolved a remarkable peat-working machine. Mr. Alex. Sommerville has been visiting these works, and gives a most interesting description of them. It is found that the peat manufactured in Canada is superior to any other kind of fuel for generating steam and for forge and iron works. Thus the cranberry grounds, once thought to be useless, have become of great value. The scheme of constructing the Ottawa and Lake Huron and Bay Verte Canals, for several years discussed by the public press, is now engaging the serious attention of capitalists. The former work is estimated to cost from $16,000,000, to $24,000,000. It would bring Chicago and Montreal 400 nearer together, and would command the trade of the great west, both British and American. It will be recollected that during the first session of the Dominion Parliament a bill was passed reducing the salary of the Governor General from £10,000 to $32,500. The bill, as might have been expected, was reserved for the consideration of Her Majesty's Government That Government refuses its sanction. In a lengthy despatch the Duke of Buckingham explains the grounds of refusal. The chief objection urged against the reduction is that it would place Canada, in that regard, in a third class position amongst the colonies, and that the office would not, therefore, attract first class men. The Toronto *Globe* has a leading article upon the subject in which it takes the position that, although, perhaps, nominally below some other colonies, yet the salary proposed by the rejected bill would, in reality remunerate a Governor better than the higher salaries paid elsewhere; in Victoria, for instance, where the expense of keeping up an establishment is nearly double. Yet the *Globe* is disposed to take a reasonable and liberal view of the matter. It is of opinion that much should not be made of the act of the Imperial Government in disallowing the bill; for although Canada must pay the salary, yet it is the only appointment held by the Imperial Government; and it would not, perhaps, be wise to make the position less an object of ambition to men of ability and experience. It thinks that even ten thousand pounds will not appear so very exorbitant a prize for the "blue ribbon" of the Dominion as it might at first sight be supposed. Robert Fulton, St. John, N. B., one of the famous Paris crew, challenged Geo. Brown, champion of Halifax harbor, to row a scull race for from $300 to $500. Brown accepted, and the race was appointed to come off in Halifax harbor between the 20th and 25th September, for $500. A very interesting Lacrosse match was played at Toronto, on the 1st September, between twelve of the Six nation Indians and twelve of the Ontario Club of Toronto. The Indians were victorious.

CARIBOO NEWS.

Barnard's Cariboo Express arrived during Tuesday night, or rather, early on Wednesday morning, having been brought from Yale in a canoe. By this express we have files of the *Sentinel* of the 16th and 20th inst., from which we glean the following summary of news:—

THE ELECTION.

The nomination for a member to represent Cariboo, in the Legislative Council, was held at Barkerville on the 15th, Commissioner Brew acting as Returning officer. Dr. R. W. W. Carrall was proposed by Mr. C. Booth, and seconded by Mr. John McLaren. Several other candidates were nominated; but they declined to stand and Dr. Carrall was accordingly declared duly elected. It may be proper to mention here that on the day previous a requisition, bearing 176 signatures, and comprising most of the leading people, was presented to Dr. Carrall. After the declaration of the Returning Officer that gentleman retired amid cheers, and the member-elect, being loudly called for, addressed the very large and respectable audience which had been drawn together. Dr. Carrall delivered a very effective speech, in the course of which he declared himself in favor of improvement in the mining laws, retrenchment in the public expenditure, and free schools. He said his great object in becoming a member of the Council was to advocate, and, if possible, expedite the Confederation of British Columbia with the Dominion of Canada; not that he pretended that Confederation would be an immediate cure for all the ills of this Colony, but it would certainly be beneficial and tend to our social and political advancement. As an ardent lover of the glorious freedom of the British Government and its institutions, he wished to see all the inhabitants of British North America sink their political jealousies and prejudices and unite heart and hand in forming one grand dominion under one government, with one tariff, one name, and one common interest for the mutual welfare of each other. Let the distinctive names of Nova Scotians, Columbians, or other appellations be dropped; let Canadians cease to sneer at Englishmen, and Englishmen at Canadians; and if all only work cordially together in developing the resources of the young nation they will soon be proud to boast of being British subjects hailing from the dominion of Canada. The Doctor was loudly and enthusiastically cheered when he sat down.

THE FIRE BRIGADE.

An adjourned public meeting was held at Barkerville, on the 19th, for the purpose of receiving the report of the Committee appointed to prepare a scheme. Mr. J. T. Scott, Chairman of the Committee, reported. The principal recommendations are, the formation of a permanent Fire Brigade, to consist of a Captain, First and Second Assistants, Secretary, and Treasurer, and sixty active members; the construction of water-tanks, and the procural of hooks, ladders and buckets. The Committee deem it imperatively necessary to procure a good fire engine as soon as possible. They recommended the appointment of Messrs Finlayson, Watson, and Gillon as a deputation to wait upon the Governor to solicit assistance in carrying out the scheme. The enrollment of members for the Fire Brigade was to commence at once, and a meeting was to be held on the 21st for the purpose of electing officers.

MINING INTELLIGENCE.

The burthen of the cry was still, "No water!" On Williams the washups for the week were few and small. On Hard Scrabble considerable activity prevailed and confidence was maintained. On Little Creek the Chinamen are making about $12 a day to the hand.

MISCELLANEOUS INTELLIGENCE.

On the 18th Mr. Thomas Jordan, foreman of the Floyd co., accidentally stepped over a side of the road between Barkerville and Richfield, falling some 15 or 20 feet. In falling his head struck a rock, causing a severe contusion. He was conveyed to the hospital, where he lay in a critical condition. The first colonial flour of the season was brought on to Williams Creek on the 18th, from the Protection Mills, Deep Creek. It is a very superior article. Mr. Allen has, at his own expense, opened a trail through to Mustang Creek. He has taken in a winter's supply of provisions. The foundation of a new Methodist Church had been laid, and it was expected the building would be sufficiently advanced in a couple of weeks to hold service.

FURTHER INTELLIGENCE.

The following intelligence has reached us through reliable private channels:—In Mosquito Gulch mining operations have suffered less from the drought than most other diggings. The weekly yield of the celebrated Minnihaha has steadily ranged between 200 and 250 ounces. For the week ending 18th, the latter figure was realized. The Tabb, the Willow and the Hocking have been yielding proportionately well.

LATER.

Mr. J. T. Scott arrived in this city on Tuesday night, the 27th, having left Barkerville at 2 p.m., on Thursday the 22d. This is probably the quickest passage ever made from Cariboo, when allowance is made for his having travelled by canoe between Yale and this place. Mr. Scott has been delegated to see the Governor, in conjunction with the gentlemen named in our last, upon the subject of aiding in the equipment of the Fire Brigade. The meeting referred to in our last, took place at Mr. Scott's Saloon, on the 21st, when 63 active members, chiefly property owners, were enrolled, and the following officers appointed:—Capt. Isaac Oppenheimer; 1st Lieut., J. Bruce; 2d Lieut., F. Parritt; Secretary, Mr. Grant; Treasurer, Mr. Blunt; Finance Committee:—Messrs. Cunio, Burrell and Wolf. The news from Hard Scrabble Creek was very encouraging.

TELEGRAPHIC SUMMARY.

European dates are to the 21st, but are meagre and uninteresting. The Central provisional Junta of Spain held its last session on the 20th. Resolutions were adopted, urging the abolition of capital punishment, the removal of convicts from Spain to Africa and the Phillipine Islands, and the formation of volunteer rifle companies throughout the country. General Prim addressed a letter to the editor of the *Gaules*, repelling charges of personal ambition, disclaiming all aspirations after royalty, and declaring that he would prefer peace in the country to a crown.

The news from the Eastern States is to the 23d. A Panama letter states that all the Ports of that State have been declared closed. Satisfactory arrangements have been made with the Pacific Steamship Mail co. for carrying the mails between New York and San Francisco. The *Tribune's* Washington special says, Minister Johnston telegraphs that the difference pending relative to the Alabama depredations will be referred to the King of Prussia for settlement, and not to the Emperor of Russia. On Monday last the Union Pacific Railroad company were to have cars running over 860 miles of their line. On the 22d Horatio Seymour delivered the opening speech of the campaign, at Buffalo, to an audience of fully 8000 persons. At a meeting of the incorporators of the Isthmus Canal Company, held at the Cooper Institute, New York, on the 20th, the company elected Peter Cooper President. The feasibility of the proposed canal was thoroughly discussed and the highest estimated cost is one billion dollars; five directors were appointed to receive subscriptions. Seward made an elaborate speech, setting forth the necessities of this formidable enterprise, and said he had no doubt of its early completion.

SELL 'EM GOODS? Of course they do! Can't you see that as you pass their store every day? and all kinds of goods, too. Why, their stock cannot be surpassed anywhere on this side of Land, for price and quality. Give them a call, don't be afraid. There is never anything but *Goods* sold at *Cute & Carlson's*. *

SALEM GOODS.—Mr. Cunningham has just received, direct from the Salem Woolen Mills, Oregon, a choice selection of Tweeds and Flannels, suitable for Fall and Winter clothing. These goods are in excellent styles and are remarkable for durability. *

THE KING OF BAVARIA kindly permitted Doct. J. C. Ayer to have a copy taken of Rauch's celebrated colossal statue of Victory, which belongs to the Bavarian crown, and stands at the entrance of the Royal Palace at Munich. The Doctor had it cast in bronze, and has presented it to the city of Lowell, where it stands in the Park and symbolizes the triumphs both of freedom and medicine. Her manufactures are the pride of Lowell, and foremost amongst them AYER'S MEDICINES make her name gratefully remembered by an unnumbered multitude who are cured by them of afflicting and often dangerous diseases.—Boston *Journal*.

HOLLOWAY'S PILLS.—Enfeebeled Existence.—This medicine embraces every attribute required in a general and domestic remedy; it overturns the foundations of disease laid by defective food and impure air. In obstructions or congestions of the liver, lungs, bowels or any other organ, these Pills are especially serviceable, and eminently successful. They should be kept in readiness in every family, as they are a medicine without a fault for young persons, and those of feeble constitutions. They never cause pain or irritate the most sensitive nerves or most tender bowels. Holloway's Pills are the best known purifiers of the blood, and the best promoters of absorption and secretion, which remove all poisonous and obnoxious particles from both solids and fluids.

MEXICAN MUSTANG LINIMENT.
The merits of this Liniment are well known. Its effects are instantaneous, soothing, and wonderful.
Cuts, bruises, sprains and swellings, are so common, and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.
It is more certain than the doctor—it gives time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.
READ THE FOLLOWING.
"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches, or Galls on horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c., and all say it acts like magic. J. W. HOWITT,

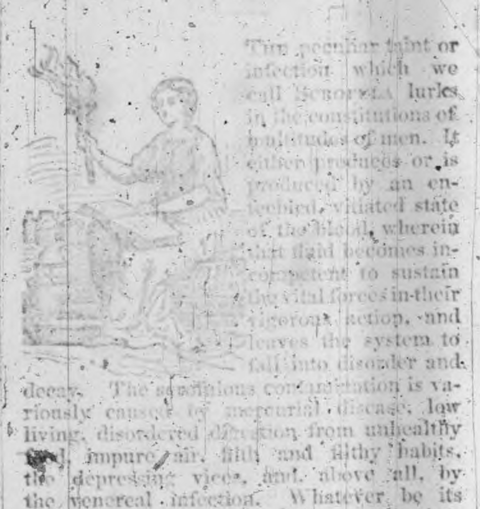
AYER'S MEDICINES.



THE peculiar taint or infection which we call SCROFULA lurks in the constitutions of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses,** and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. These cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of *Sarsaparilla* in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system, or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S

CHERRY PECTORAL,

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

ADDRESS

TO THE

NERVOUS AND DEBILITATED

WHOSE

SUFFERINGS HAVE BEEN PROTRACTED,

AND WHOSE CASES

REQUIRE PROMPT TREATMENT TO RENDER EXISTENCE DESIRABLE.

If you are suffering, or have suffered, what effect does it produce upon your general health?

Do you feel weak, debilitated, easily tired?

Does a little extra exertion produce palpitation of the heart?

Does your liver, urinary organs, or your kidneys, frequently get out of order?

Is your urine sometimes thick, milky or flocky, or is it ropy on settling?

Or does a thick scum rise to the top?

Or is a sediment at the bottom after it has stood awhile?

Do you have spells of short breathing or dyspepsia?

Are your bowels constipated?

Do you have spells of fainting or rushes of blood to the head?

Is your memory impaired?

Is your mind constantly dwelling on this subject?

Do you feel dull, listless, moping, tired of company, or of life?

Do you wish to be left alone, to get away from everybody?

Does any little thing make you start or jump?

Is your sleep broken or restless?

Is the lustre of your eye as brilliant?

The bloom on your cheek as bright?

Do you enjoy society as well?

Do you pursue your business with the same energy?

Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia.

Have you restless nights? Your back weak, your knees weak, and have but little appetite and you attribute this to dyspepsia or liver complaint?

NOW, READER,

DISEASES BADLY CURED, AND EXCESSES,

Are capable of producing a weakness of the generative organs. The organs of generation when in perfect health, make the man. Did you ever think that those bold, defiant, energetic, persevering, successful business men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in the company of ladies, and look you and them right in the face—none of your downcast looks, or any other meanness about them. I do not mean those who keep the organs inflamed by running into excess. These will not only ruin their constitutions, but also those they do business with or for.

How many men, from badly-cured diseases and excesses, have brought about that state of weakness in those organs that has reduced the general system so much as to induce almost every other form of disease—idiocy, lunacy, paralysis, spinal affections, suicide, and almost every other disease which humanity is heir to, and the real cause of the trouble never suspected, and have doctored for all but the right one?

Diseases of this sort require a Diuretic.

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR

Scrofula and Scrofulous Diseases.

From Emery Edes, a well-known merchant of Oxford, Maine.

"I have sold large quantities of your SARSAPARILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Dennisville, Cape May Co., N. J.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known Gage, Murray & Co., manufacturers of enamelled papers in Nashua, N. H.

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost every thing a man could of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Sawin, Houston St., New York.

"DR. AYER. I seldom fail to remove *Eruptions* and *Scrofulous Sores* by the persevering use of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* with it. No alterative we possess equals the SARSAPARILLA you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wakeman, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general *debility*, and for *purifying the blood*, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Sickler, Esq., the able editor of the Tunkhannock Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on its forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease.

From Dr. Hiram Sloat, of St. Louis, Missouri.

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of *Syphilis* and for syphilitic disease than any other we possess. The profession are indebted to you for some of the best medicines we have."

From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.

"DR. AYER. My dear Sir: I have found your SARSAPARILLA an excellent remedy for *Syphilis*, both of the *primary* and *secondary* type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Liew, of New Brunswick, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or *mercurial disease*, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him.

Leucorrhœa, Whites, Female Weakness, are generally produced by internal *Scrofulous Ulceration*, and are very often cured by the alterative effect of this SARSAPARILLA. Some cases require, however, in aid of the SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrill, of Cincinnati.

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhœa, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhœa of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia, when caused by *Scrofula* in the system, are rapidly cured by this EXT. SARSAPARILLA.

ADVICE GRATIS!

HOLLOWAY'S PILLS

To Purify the Blood.

These Pills have been placed by the common consent of mankind at the head of all remedies for removing obnoxious humors from the blood, and cleansing all the tissues effectually. They have saved thousands year after year from falling a sacrifice to the effects of dyspepsia, dysentery, diarrhœa, [illegible] liver complaints, &c., a fact attested by hundreds of witnesses. Excessive weakness and debility [illegible] organic energy and vital action, are removed and supplanted with vigor and healthful action in every organ throughout the system, by [illegible] of this medicine.

Female Complaints.

All disorders of the sex, and disease in every crisis [illegible] of woman, youthful or aged, married or single, [illegible] and quickly cured without risk or trouble, by a fair use of these Pills, taken according to the printed directions.

Indigestion with languor and want of energy.

When taking these Pills, rub Holloway's celebrated Ointment over the pit of the stomach, and over the region of the liver, on the right side under the ribs, and you will at once experience a change for the better in your digestion, spirits, appetite, strength, and energy. The improvement, though it may be gradual, will be thorough and lasting.

DROPSY.

The efficacy of Holloway's Pills in dropsy is extraordinary. They act with such peculiar effect upon the system, that the fluids arising from this direful disease are imperceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely restored constitution; but it is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts.

Stomach, Liver, Kidneys and Bowels.

Those who suffer from bile and liver complaints, should try the effects of this valuable remedy; a few doses of which will make the stomach [illegible], removing [illegible] to the liver; if bilious [illegible] serious casualties may [illegible] the sufferer be consigned to a bed of sickness [illegible] the kidneys, the Ointment should be well rubbed into the small of the back, once or twice a day; and the Pills taken in unison, will cure any complaints arising from these organs.

Piles,—Shortness of Breath with Weakness.

Very bad symptoms, which if not corrected, may tend to [illegible] disorders of the heart, or other vital organs [illegible] Pills nightly [illegible] with moderate exercise, and the balance [illegible] will be quickly restored to health and vigor. Try this but for three days only, and the result will be marvellous.

Complaints incident to Children.

All complaints of children [illegible] may be cured if care be taken to purify their blood, correct the action of the liver, and regulate the stomach and bowels; a few [illegible] of these famous Pills will immediately have the desired [illegible], particularly if parents be careful in not allowing them to eat of things which they know would be injurious to themselves.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague,	Female Irregularities,	Scrofula, or King's Evil,
Asthma,	Fevers of all kinds,	Sore Throats,
Bilious Complaints,	Fits,	Stone and Gravel,
Blotches on the Skin,	Gout,	Secondary Symptoms,
Bowel Complaints,	Head-ache,	Tic Douloureux,
Colics,	Indigestion,	Tumours,
Constipation of the Bowels,	Inflammation,	Ulcers,
Consumption,	Jaundice,	Venereal Affections,
Debility,	Liver Complaints,	Worms of all kinds,
Dropsy,	Lumbago,	Weakness, from whatever cause,
Dysentery,	Piles,	&c., &c.
Erysipelas,	Rheumatism,	
	Retention of Urine,

CURE IS AT HAND!

HOLLOWAY'S OINTMENT

Scorbutic Eruptions, as Sore Heads and Scrofulous Swellings.

If this powerful Ointment be well rubbed into the parts affected, all skin disease will be speedily overcome. It acts not by repression, but expulsion. It enters the system as salt enters meat, and [illegible] locally only, but constitutionally purifying the whole system, neutralizing all depraved humours, and effecting a radical and complete cure. The Pills should be taken as an auxiliary to the Ointment, as they are prepared so as to act in unison with it, facilitating and confirming the conquest of the disease.

Diptheria, Ulcerated Sore Throat and Quinsey.

The above complaints have for twenty years been treated with Holloway's Ointment and Pills with complete success. The cures have been so remarkable, speedy and numerous, that these often fatal diseases are more readily cured by these medicines, than even the common sore throat, if taken in time.

The Kidneys, Stone and Gravel.

In these complaints, the Ointment almost acts like a charm, provided it is very effectually rubbed over the regions of the kidneys, which it will penetrate and give almost immediate relief, while the Pills should be taken according to the printed directions, when the most extraordinary cures may be effected by this means.

Bad Legs, Bad Breasts, Scrofulous Sores, and Glandular Swellings.

In such cases the Ointment operates surely and with a rapidity that resembles magic. It should be rubbed into the parts affected, after they have been fomented with lukewarm water. The purifying and curative powers of this marvellous unguent have never failed. Any old sore, wound or ulcer always yields to its influence, and in cases of bad breasts, or milk fevers, its action is wonderful. Glandular swellings may soon be reduced by following the printed directions.

The Action of the Heart. Dropsy.

The last named disease is commonly preceded by irregular action of the heart and difficult respiration; which symptoms are always severe, and ever go from bad to worse, unless proper means of cure are resorted to. In Holloway's unrivalled Ointment and Pills the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the application of this famous Ointment, invariably results in a cure. They act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

Gout and Rheumatism.

May be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts, and this perseveringly done for some time. It is no use to smear it on the skin only, it must be got into the system. Take as many Pills nightly as will act two or three times during the 24 hours; eschew the use of coffee, and all stimulants. When these complaints are leaving the system, the virulence of the complaint frequently seems to increase.

Indiscretion of Youth.

Sores, ulcers and swellings can with certainty be cured if this Ointment be thoroughly rubbed all round the complaining parts twice or thrice a day, keeping them covered with linen rag spread with the same.

The Pills must be taken according to the printed directions. The blood being in an impure state, perseverance is necessary. From humane motives letters of advice will be answered gratuitously. To save carriage the Pills should be obtained in the neighborhood of the sufferer, and not from Holloway's Establishment.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Chapped hands,	Scalds,
Bad Breasts,	Contracted and Stiff Joints,	Sore Nipples,
Burns,		Sore-throats,
Bunions,	Elephantiasis,	Skin-diseases,
Bite of Mosquitoes and Sand-flies,	Fistulas,	Scurvy,
	Gout,	Sore-heads,
Coco-bay,	Glandular Swellings,	Tumors,
Chiego-foot,		Ulcers,
Corns (soft),	Lumbago,	Wounds,
Cancers,	Piles,	Yaws.
Chilblains,	Rheumatism,
